SPORTS

Now that the yacht race is an assured event, the Hawaii that has been ready for the race for some time will be placed in commission, under the command of Captain Harris and a crew of professional seamen, and will be made ready for the run up to San Pedro and the race down. The cable that was sent yesterday morning brought the good news yesterday afternoon that there would be a race and that it would start on July 4 from San Pedro.

The Hawaii will be given several tuning up trial spins before she clears for the coast, and by the time that she leaves everything will be in the best possible condition, so that nothing but some serious accident will prevent her from winning which is the wish of everyone in Hawaii.

Her racing sails will be bent in a day or so, the unnecessary ballast will be taken out, and everything that has to be done will be done before she leaves for the coast. It is probable that she will be put on the marine railway here to have her bottom cleaned and painted, as there is only a very small railway in San Pedro and the depth of water is too little to risk taking her up to it.

Captain Harris has the reputation of knowing how to sail a yacht and with good winds the Hawaii should be the first yacht that the lookout at Diamond Head reports sometime the middle of July.

The final round in the Invitation tennis tournament was fought out yesterday afternoon on the Beretania Club courts, the winner being W. L. Warren who defeated Allen J. Lowrey 6-4, 8-6, 6-3.

Warren is in excellent form just at present, and if he keeps it up the championship of Hawaii will probably go to him this year.

His many friends are very anxious to see him and the present champion, Willie Roth in action, and it is quite possible that a friendly match will be arranged in the near future.

The Kapiolani Baseball league will meet tonight at the regular time.

E. H. Lewis' "25" Franklin, and C. H. Bellman's "40" Studebaker will compete on Saturday afternoon at Kapiolani Park in a five-mile race. To

RHEUMATISM

Build up your nervous system, remove the poison from the blood, and restore perfect blood circulation with Dr. Miles' Nervine, and you will find the cause removed, your rheumatism gone, and your entire nervous system vigorous and healthy. Sold with a guarantee that first bottle will benefit, or your money back.

avoid all dangers of accident the cars will change places every lap on the turns. Young Lewis will drive his father's car, while Schoening will do the same thing for Bellina. A prize has been offered by the Associated Garage. It is quite possible that the Garage will arrange another race between a Ford and a Cameron runabout, to be run after the big car race. The race will start promptly at four o'clock.

The next meeting of the Honolulu baseball league will be held tomorrow at twelve fifteen in Frank Thompson's office.

At the meeting of the Newspaper Baseball League held yesterday afternoon, it was decided to play all future games on Sunday afternoons on the big league grounds. The first game will be played at one o'clock, to be followed fifteen minutes after its close by the second game. The Bulletin and Advertiser teams will line up in the first game next Sunday, and the Mercantile and the Paradise teams in the second game.

The Diamond Head Athletic Club will hold its third anniversary next month. On the fourth of June a concert will be given at the drill shed and on the sixth a dance at the Young hotel.

The Chinese A'oha club is very much put out with the way the Boy Orator has been talking about the captain of its team, Albert Akana. Its advice to Bernard is to be more careful in the future in the way he talks in public or through the medium of the press.

It is possible that St. John, a newcomer in town, will be seen in the box for the Diamond Heads next Saturday.

Bill Vannatta and Jones will probably play on Saturday for the Kams. Jones in talking yesterday about the chances of his being in the game on Saturday remarked that he thought he would go back in the game once more, although he had said that he was finished with baseball.

The Outrigger Club will meet this afternoon at four o'clock in R. H. Trent's office.

PANAMA SEEKS TO CAUSE WAR

CARTHAGE, (Colombia), May 6.—The Government of Colombia has reason to believe that the Government of Panama is intriguing with Venezuela to declare war upon this country. It is known that the occupation of Jurado, which is on the Altrato river, the boundary line between Panama and Colombia, has angered the Panama Government.

The occupation of Jurado was done on the advice of the Mexican Government, which held that it was clearly within Colombian territory. The attitude of the Government of Panama has given the United States a good deal of solicitude. One of Secretary Taft's chief missions to Panama is to try and adjust the matter. It is believed that America disapproves of the efforts of Panama to induce Venezuela to make war upon Colombia.

TRAVERSE CITY (Mich.), May 6.—Daniel Whipple died Monday from hemorrhage of the brain, aged 109 years. Sunday he seemed as well as usual and took a long walk in the fields. Mr. Whipple was a member of General Fremont's exploring party on the historic trip across the Rocky mountains. He was long a companion of Kit Carson, and later served through the Civil War in an Iowa regiment.

THE GOVERNMENT CALLS IN MONEY

A Total Deficit of \$51,600,000 For the Fiscal Year Thus Far.

\$45,000,000 DEPOSITS CALLED.

Banking Interests Indifferent If Not Favorable To Reduction of Accumulations.

NEW YORK, May 2.—Bradstreet's of this date contains the following editorial comments on the financial situation:

With the government's expenditures exceeding its revenue collections, as is the case at present—the total deficit for the fiscal year thus far being some \$51,600,000—it was regarded as inevitable that a further call should be made on the depository banks for the return of another installment of the Treasury deposits, which now amount to approximately \$190,000,000, compared with about \$270,000,000 at the height of the panic last autumn. It is also pointed out that the Treasury is bound to strengthen its position before August 1, when the \$63,945,000 of 3 per cent. Spanish war bonds of 1898 become redeemable, although they are not due until 1913. In keeping with the general expectation, the Secretary of the Treasury therefore issued a call on last Monday for \$45,000,000 of the government deposits held by national banks, to be paid in two installments of \$20,000,000 on or before May 9 and \$25,000,000 on or before May 25, it being stated that, though the amount required to be repaid by individual banks would be based on a percentage of the total, due regard would be paid to the cases where the deposits are used to meet the drafts of the government's disbursing agents. It has already been pointed out that in advance of formal action the money markets of the country anticipated it, and on account of the heavy accumulations of idle funds, are in such a position that the reduction of the United States deposits makes no particular difference to the banks. It may be noted, in fact, that during the present week banks at New York have already turned into the sub-Treasury at that city some \$3,000,000 of the government funds which had been intrusted to them.

Further illustration of the indifference, not to say favor, with which banking interests regard a reduction of the great accumulation of money in the banks is furnished by the failure of continued gold exports during the present week, supplementing the above-mentioned call on the depository banks to materially influence the loan markets of the country. At New York in particular, while, as is noted in detail elsewhere in this issue, there was a slight quickening of the demand for long-time loans, very little change occurred in the rates for either call or time money. As regards the gold outflow, the situation would still seem to warrant the belief that further shipments will be made from New York to Paris, and perhaps to Berlin, in addition to the \$12,500,000 which up to this time makes up the total of the movement. While the Bank of England is apparently in a stronger position, it is evident that Paris is still inclined to draw specie, as is shown by the decline in the rate of exchange on London at the French capital to 25 francs 11 centimes. At the latter figures triangular operations in exchange and gold between London, Paris and New York are feasible, involving the transfer of specie from the last-named center to the French capital, even though the sight sterling rate at New York has receded to around 4.87. One feature of the situation which may have an influence in at least retarding shipments of gold from this country or reducing the aggregate amount is the considerable subscriptions of foreign interests to various recent American bond issues, which fact is reflected by the somewhat better supply of bills of exchange noted in the New York market this week.

JAPAN SEEKS TO RESTORE CREDIT.

Government Bonds Carried Far Down By the Financial Depression.

TOKIO, May 6.—The amelioration of the financial depression monopolizes the attention of capitalists throughout the country. The conditions are ascribed to the adoption of Government measures without consulting the capitalists. Government bonds are below 50; the standard valuation hitherto has been 90. Financiers are conferring with the financial department with the object of restoring confidence.

A banker connected with the movement said: "Japan's finance does not contain an element injurious to the national credit. The prevalent feeling is due to ignorance of the actual state of the matured plans, the adoption of which will certainly remove suspicion, and an economic improvement will soon follow. Financiers will shortly pass a resolution which the Government, I am well advised, will accept. The result of the present conference will be published in June."

FRAUD CHARGED IN CORPORATION

Receiver Asked For the Puget Sound Wood Products Company.

LARGE AMOUNTS INVOLVED.

Secret Process Also Alleged To Have Been Improperly Sold.

TACOMA (Wash.), May 6.—Application for a receiver for the Puget Sound Wood Products Company was made to the Superior Court today by J. R. Allen, P. J. Elliott and George A. Stanton. It is charged that the corporation's affairs have been mismanaged and that the public is deceived as to its financial condition in an effort to sell stock. The Court is also asked to compel the Monarch Wood Products Company to return to the Puget Sound Wood Products Company \$510,000 worth of stock.

The charge is made that there has been mismanagement and collusion to the detriment of the stockholders of the Puget Sound company. The big plant of the company is at Anacortes. The complaint states that in February, 1907, Captain B. W. Bell, late of the United States Secret Service; R. N. Calkins and R. S. Green organized the Puget Sound Wood Products Company at a capital of \$1,000,000. Bell is said to have subscribed for 5 shares, Calkins 5 shares and R. S. Green 999,999. The Court is told that Green's subscription was false and that when the company was formally organized the three principals held only 5 shares each.

It is alleged that last July the Monarch Wood Products Company was organized by Bell and Green, together with Andrew Quigley, with a million shares. It is charged that Bell as president and Green as secretary of the Puget Sound Wood Products Company made contracts with the Monarch company for the purchase of a secret process for the extraction of turpentine and rosin from wood and delivered to the Monarch 51 per cent of the stock of the Puget Sound Wood Products Company without the knowledge and consent of the stockholders.

CARNEGIE GIVES LARGE SUM TO TRADE SCHOOLS.

NEW YORK, May 6.—Andrew Carnegie's additional gift of \$200,000 to the general Society of Mechanics and Tradesmen, making \$527,000 in all from him, was announced tonight at the unveiling of a bronze bust of Carnegie which the society has placed in its building as a memorial of its chief benefactor. The society has maintained the Mechanics' School here for eighty-three years and also maintains free scholarships in the New York Trade School.

ACCEPTS NAVAL BILL CHANGE

Ten Million Dollars Voted To Begin Work On Two Battleships.

PEARL HARBOR ONE MILLION.

Changes In Ammunition Hoists On Battleships Will Not Be Made.

WASHINGTON, May 6.—Conferees on the naval appropriation bill have reached a substantial agreement on practically all amendments except that to increase the pay of the enlisted men of the Navy, which was not taken up. The Senate amendment appropriating \$10,000,000 in order that work may be begun in July next on the two battleships authorized was agreed to by the conferees. The amendment to establish a naval station and build a dry dock at Pearl harbor, Hawaiian Islands, was accepted. An appropriation of \$1,000,000 to begin work is made by the amendment. The provision made by the Senate for the enlargement of the marine corps was adopted.

It is understood that the appropriation made by the Senate to "trunk in" ammunition hoists on battleships which are now equipped with the open turret and direct open hoist will be disapproved by the conferees, as the turret and ammunition-hoist commission reported recently against making the changes.

STAR FLEET EDITION THAT WILL ATTRACT WORLD ATTENTION

The Hawaiian Star's special fleet edition will be issued simultaneously in San Francisco and Honolulu, on the lines of the plan whereby the London Daily Mail issues simultaneous editions in London and Manchester, and the New York Journal and San Francisco Examiner frequently issue at the same hour papers in many respects identical, though the width of a continent apart from one another.

The existence of a cable line between here and San Francisco makes such an enterprise possible. It will be the first time such a journalistic feat was ever attempted in the Pacific. It will give the Hawaiian islands one of the greatest advertisements they ever had, for the publication will arouse comment all over the United States and Europe.

To Honolulu advertisers this edition offers the best opportunity ever given, without exception.

TWENTY THOUSAND officers and men of the fleet will be reading and referring to this paper all the eight or nine days of their trip here.

They will get the paper just when they are looking for information about Hawaii,—when they are leaving San Francisco with Hawaii as their next stopping place. They will look it over every day, for information about Hawaii.

More than three quarters of the officers and men have never been here, and they will be deeply interested in a Honolulu newspaper.

Prominent business men of the Territory in commenting upon the plan above outlined have expressed the opinion that the fleet edition of The Star, issued in this way, will be one of the greatest bits of Promotion work ever done here.
